STAINING WITH GOLDEN HIGH FLOW ACRYLICS & ACRYLIC FLOW RELEASE

MATERIALS:

- Raw canvas
- Plastic table covering
- Water container

GOLDEN PRODUCTS:

- GOLDEN Acrylic Flow Release (0003590)
- GOLDEN High Flow Green Gold (0008528)
- GOLDEN High Flow Ultramarine Blue (0008551)
- GOLDEN High Flow Phthalo Green BS (0008538)
- GOLDEN High Flow Quinacridone Magenta (0008540)
- GOLDEN High Flow Quinacridone/Nickel Azo Gold (0008542)

STEP - BY - STEP:

1 – Cover your working surface with plastic. Choose a piece of raw canvas at least 3" square or larger.

2 – Create a mixture of GOLDEN Acrylic Flow Release (AFR) and water in a ratio of 1-2 drops of Acrylic Flow Release to approximately 8 ounces of water (236 ml). Make enough of the mixture to coat and saturate the raw canvas.

3 – Prepare the canvas by saturating it with the AFR/water mixture. Make sure the canvas is evenly coated and thoroughly saturated.

4 – Drip the GOLDEN High Flow colors right out of the bottle onto the wet canvas. Note: High Flow Colors come with a seal on the bottle. Unscrew the lid and remove the seal before first use.

GOLDEN Acrylic Flow Release is available in 4, 8, 16, 32 & 128 ounce containers.
